

# DTFs and KJPSC JAG Funding Priorities 2021

DTFs should write a completely fresh grant application that highlights how the DTF project works to support one or more of the following Funding Priorities from the **JAG 2021 Program and Financial Guidelines**. Copy/pasting from last year's application will not be sufficient - take a close look at the intention underlying each funding priority and show how DTF work supports that goal.

## Priority: Addiction Treatment and Recovery

Funding will be used for programs proven to provide meaningful addiction treatment and recovery services for inmates and to decrease substance misuse and availability in Kentucky communities.

Page 4

How does your DTF work help people overcome addiction and combat drug addiction within Kentucky communities?

Describe how your DTF decreases substance misuse and availability in your jurisdiction. What proven strategies do you employ to carry out that mission?

## Priority: Recidivism Reduction

Funding will be used to support evidence-informed recidivism reduction initiatives that target underlying drivers of recidivism and evidence-informed prison population reduction strategies that have been shown to minimize risk to the public.

Page 5

What smart-on-crime reforms or policy/procedural changes have you implemented to allow your DTF to more effectively preserve public safety and decrease recidivism?

Describe how your DTF work minimizes risk to the public while preserving public safety.

## Priority: Community Safety

Funding will be made available to provide law enforcement with training on best practices for engaging communities and keeping them safe.

Page 5

How will your organization use JAG funds to more effectively train DTF officers to implement best practices and make communities and officers safer?

Describe how your DTF engages with local communities to keep them safe while working to disrupt mid- to upper-level drug trafficking organizations.
